

## SFY2017 Fidelity Measurement Tools for Community Mental Health Centers (CMHCs)

### Fidelity Instruments (Behavioral Health):

Instrument	Purpose	Population	Data Pathway		
			Administration	Frequency	Routing
<b>Community Supports for Wraparound Inventory (CSWI) (Part of the Wraparound Fidelity Assessment System):</b> <a href="http://depts.washington.edu/wrapaval/WFI.html">http://depts.washington.edu/wrapaval/WFI.html</a> )  For Technical Assistance: Beth Jordan Beth.Jordan@ky.gov 502-782-6172	The CSWI is a web-based survey tool designed to measure how well a local system supports the implementation of the wraparound process. The CSWI is based on the framework of Necessary Conditions described by Walker, Koroloff and Schutte (2003), and presents 40 community or system variables that ideally are in place in communities that aim to implement the wraparound process. The CSWI is somewhat unique from the other WFAS instruments in that it <u>assesses the system context for wraparound</u> as opposed to the fidelity to the practice model for an individual child and family.	Community stakeholders (e.g., families, youth, Regional Interagency Council (RIAC) members) complete the CSWI by rating the degree of development of their community across 6 areas – Community Partnership, Collaborative Action, Fiscal Policies and Sustainability, Access to Needed Supports and Services, Human Resource Development and Support, Accountability.	CMHC designates a Regional CSWI Coordinator who: (1) Introduces the CSWI to the community/ stresses the value of participation; (2) Gathers contact information for potential survey participants in the community; (3) Works with staff from the National Wraparound Evaluation & Research Team (WERT) through the Wraparound Fidelity Assessment System to customize the survey, if needed; and (4) Reminds and encourages participants to complete the CSWI. WERT sends the survey out & compiles a feedback report.	The CSWI can be administered in specified intervals (e.g., every 18 months) to allow communities to objectively assess continued community involvement and support of the wraparound process.	The online survey is administered by the Wraparound Evaluation and Research Team (WERT) to community partners. The results are compiled and a comprehensive report is provided to participants.

<b>Seeking Safety Adherence Scale OR Brief Adherence Form</b> Developed by Lisa Najavits (who also developed the Seeking Safety Model)  Forms and instructions available from website: <a href="http://www.seekingsafety.org">www.seekingsafety.org</a>  For Technical Assistance:  DBHDID	Adults or adolescents with co-occurring trauma and substance abuse (is also used for substance abuse with no identified trauma) Designed for groups.	Supervisor or rater fills out while observing group session either in person or by listening to or watching a tape of a session (audio or video).	Variable depending on program.	Review is performed within the CMHC as a part of supervision.
<b>Assertive Community Treatment Fidelity Scale</b> <a href="http://www.ohioactcenter.org/whatisact.htm">http://www.ohioactcenter.org/whatisact.htm</a>  For Technical Assistance: Luanne Steele Luanne.Steele@ky.gov 502 /782-6246	Adults with Serious Mental Illness (SMI)	At least two persons with experience and training in interviewing, chart reviews and data collection procedures, and familiar with the principles of ACT. Preferably independent of the Agency being reviewed.	Initial: Every six months for first two years.  Annually: After first two years, or when reaches high fidelity level.	Fidelity data shall be submitted to Department within two weeks of completion.
<b>Supported Employment Fidelity Scale</b> (formerly known as Individual Placement & Support Fidelity Scale) <a href="http://www.dartmouth.edu/~ips/page19/page19/files/se-fidelity-scale002c-2008.pdf">www.dartmouth.edu/~ips/page19/page19/files/se-fidelity-scale002c-2008.pdf</a>  For Technical Assistance: Jane Oliver Jane.Oliver@ky.gov 502 /782-6182	Adults with Serious Mental Illness (SMI)	At least two persons familiar with the Supported Employment model and fidelity scale.	Initial: Every six months for the first two years.  Annually: After first two years, or when reaches high fidelity level.	Fidelity data shall be submitted to Department within two weeks of completion.
<b>Permanent Supportive Housing Fidelity Scale</b> <a href="http://store.samhsa.gov/shin/content/SMA10-4510/SMA10-4510-05-EvaluatingYourProgram-PSH.pdf">http://store.samhsa.gov/shin/content/SMA10-4510/SMA10-4510-05-EvaluatingYourProgram-PSH.pdf</a>  For Technical Assistance: Thomas Beatty Thomas.Beatty@ky.gov 502 /782-6148	Adults with Serious Mental Illness (SMI)	Someone familiar with the Permanent Supportive Housing model and fidelity scale.	Initial and On-going: Every six months.	Fidelity data shall be submitted to Department within two weeks of completion.

<b>Illness Management and Recovery (IMR) Fidelity Scale</b>  <a href="http://store.samhsa.gov/shin/content//SMA09-4463/EvaluatingYourProgram-IMR.pdf">http://store.samhsa.gov/shin/content//SMA09-4463/EvaluatingYourProgram-IMR.pdf</a>  For Technical Assistance: Melissa Runyon <a href="mailto:Melissa.Runyon@ky.gov">Melissa.Runyon@ky.gov</a> 502-782-6187	Adults with Serious Mental Illness (SMI)	At least two persons with experience and training in interviewing, chart reviews and data collection procedures, and familiar with the principles of IMR. Preferably independent of the Agency being reviewed.	Assess before providing IMR services, then every six months for the first two years. Annually after achieving high fidelity ratings.	Fidelity data shall be submitted to Department within two weeks of completion.  Regional reports are provided on a frequent basis, with information on strengths and suggestions for improvement.
<b>Integrated Treatment (Mental Health and Substance Use) Fidelity Scale</b>  <a href="http://store.samhsa.gov/shin/content//SMA08-4367/EvaluatingYourProgram-ITC.pdf">http://store.samhsa.gov/shin/content//SMA08-4367/EvaluatingYourProgram-ITC.pdf</a>  For Technical Assistance Jane Oliver <a href="mailto:Jane.Oliver@ky.gov">Jane.Oliver@ky.gov</a> 502 -782-6182	Adults with Co-Occurring Disorder (Mental Illness and Substance Use Disorder)	At least two persons with experience and training in interviewing, chart reviews and data collection procedures, and familiar with the principles of Integrated Treatment. Preferably independent of the Agency being reviewed.	Assess before providing Integrated Treatment, then every six months for the first two years. Annually after achieving high fidelity rating.	Fidelity data shall be submitted to Department within two weeks of completion.  Regional reports are provided on a frequent basis, with information on strengths and suggestions for improvement.
<b>Consumer Operated Services (COS) Fidelity Scale</b>  <a href="http://store.samhsa.gov/shin/content//SMA11-4633CD-DVD/EvaluatingYourProgram-COSP.pdf">http://store.samhsa.gov/shin/content//SMA11-4633CD-DVD/EvaluatingYourProgram-COSP.pdf</a>  For Technical Assistance: Melissa Runyon <a href="mailto:Melissa.Runyon@ky.gov">Melissa.Runyon@ky.gov</a> 502-782-6187	Adults with Serious Mental Illness (SMI)	At least two persons familiar with the program and the Consumer Peer Support philosophy. Reviewers can be program staff and/or members but independent reviewers are preferred.	Assess before providing services, then every six months for the first two years. Annually after achieving High Fidelity Rating.	Fidelity data shall be submitted the DBHDID within two weeks of completion. Regional reports are provided on a frequent basis, with information on strengths and suggestions for improvement.
